

## **bSeolized shadowMaker 4.0 - 2011-01-28**

Bugfix update:

Crosslinks would get incorrect when more runs where used to generate a domain

RSS feed generation would sometimes give links to feeds not existing

Cleaning of the content on the RSS feeds from illegal characters.

## **Centralized keyword switch file (Central X) 2011-01-28**

Bugfixes:

Negative and Positive keywords would not work on some servers.

Keyword based redirect had a bug that is fixed now.

Fixed Redirect index page to "http://domain.tld/" fixed for all extentions, worked only for .html before.
